# 5 Productivity apps that you need to checkout

Being more productive through productivity apps has recently started to become a trend. With the market getting flooded with thousands of productivity apps, people might get confused to choose the right one. The following apps will help you streamline your workflow and organize your life.

1. Glasp

Anything you want to highlight on the web from articles, Ebooks, and PDFs, Glasp can do it all. You can highlight the texts you want in different colors and even add notes to highlights. You may share your highlights with your friends in the form of posts on Glasp's social media-like platform. You can even expand your highlight collection.
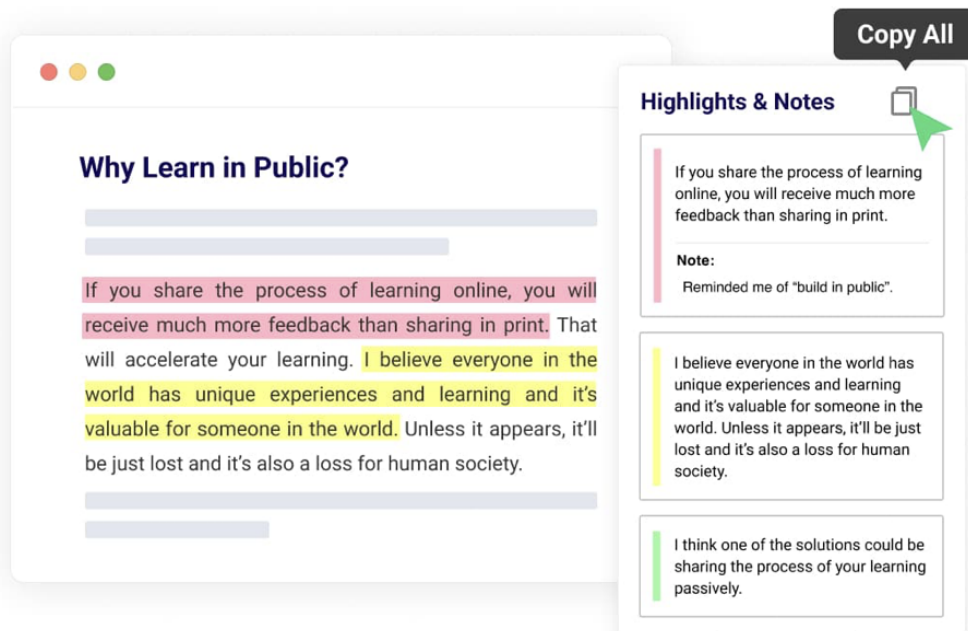

2. Todoist

To-do list-type apps might be the pinnacle of productivity apps since these types of apps can come in handy for anyone. Todoist is one of the top apps when it comes to organizing your day. You add tasks, categorize them, and make sure you complete them to achieve a goal/task streak. The cherry on top is its minimalist clean UI and google assistant integration.

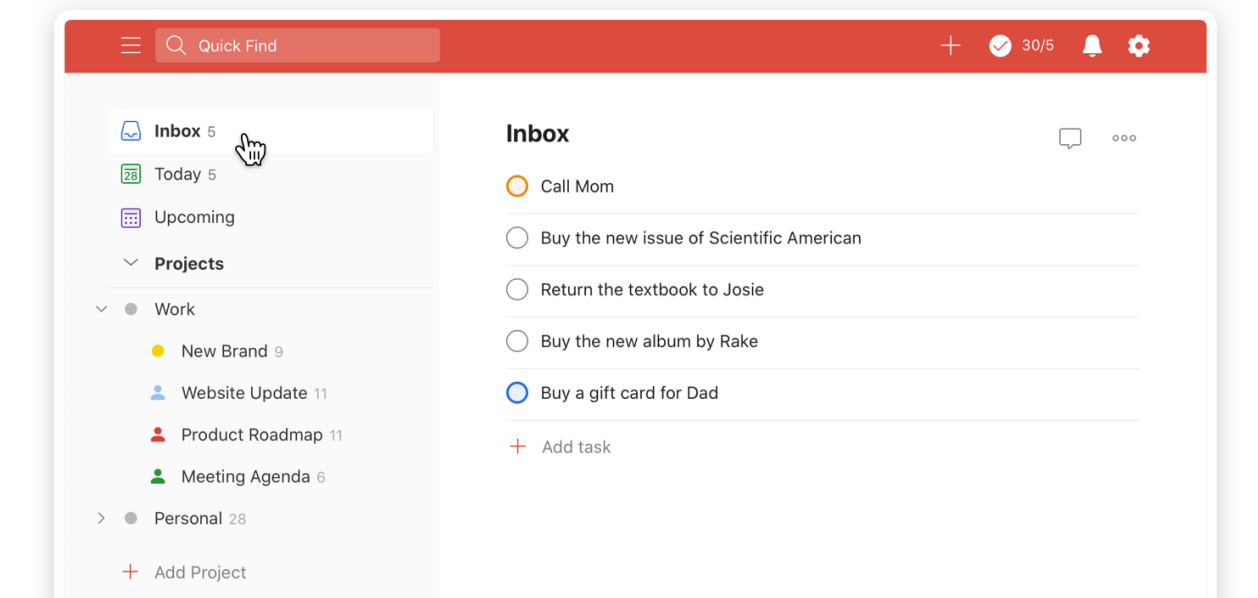

Audible

If you're someone who doesn't have time to grasp the knowledge of a book, then Audible is the solution. In Audible, you can listen to your favorite books of any genre, from stories, and novels to documentaries. One great thing about Audible and audiobooks in general are you can easily do other chores while listening to audiobooks. This is a subscription-based app, for anyone interested in Audible.
Milanote

Anyone familiar with Notion can use Milanote. The Milanote project planning system is kinda like Notion, but it supports creative project planning. Milanote helps to visualize ideas by allowing users to create board plans with a wide array of templates. With the use of Milanote, product design, art & illustration projects, etc can be planned by people from the creative fields of work.
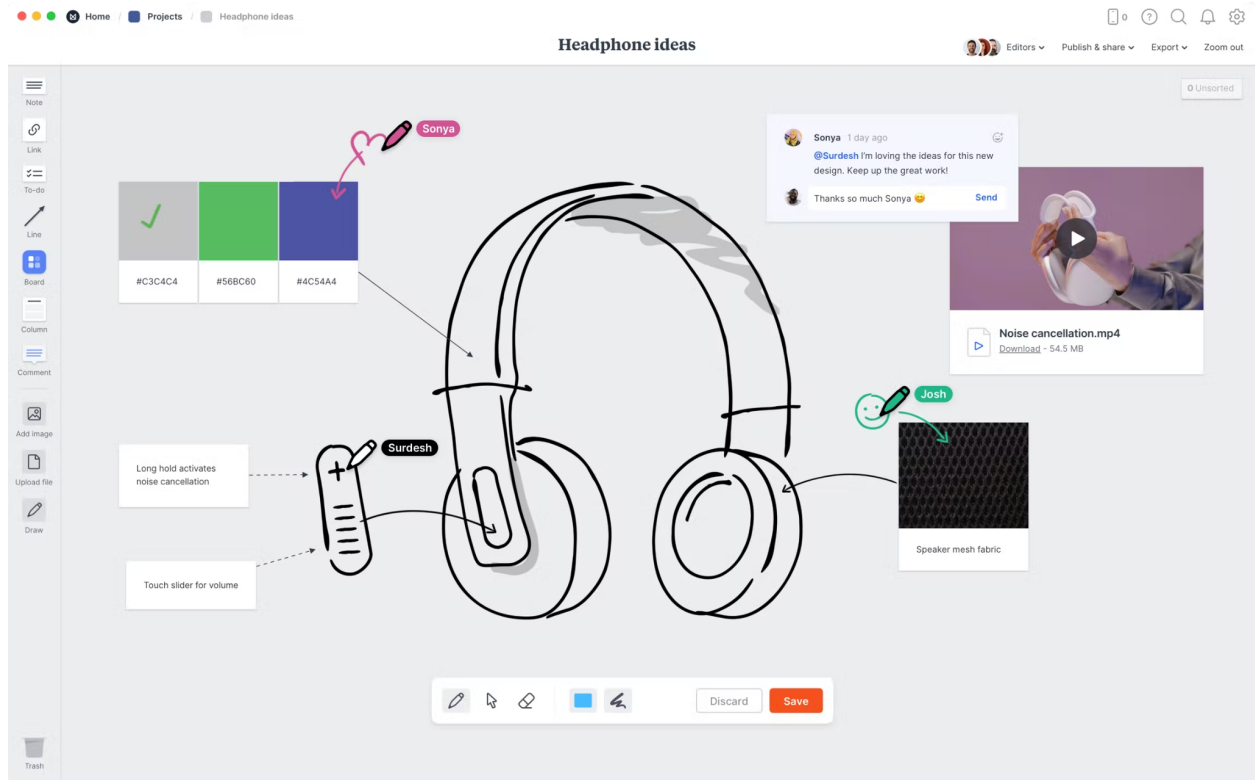

Loop Habit Tracker

Everyone wants to develop good habits and discard bad ones. So to keep habits in check you might need a habit tracker, that's where Loop Habit Tracker comes to play. One can easily add habits they desire to build and obtain comprehensive Graphs illustrating how their habits have changed over time in this habit tracker. The UI is also very, clean, minimalist, and feature-packed.

Habits

	THU 29	WED 28	TUE 27	MON 26	SUN 25
Wake up early	✓	✓	✗	✓	✗
Cook healthy dinner	✓	✓	✗	✗	✗
